Bits & Bytes: ‘The Apples of Our ‘i’

John Lipkowitz

'The Apples of Our 'i' digital art exhibit, featuring work by John and Nina Lipkowitz, will open at Berkshire School's Warren Family Gallery in Sheffield on Tuesday, Jan. 10 (see item below).

‘The Apples of Our ‘i’ digital art exhibit

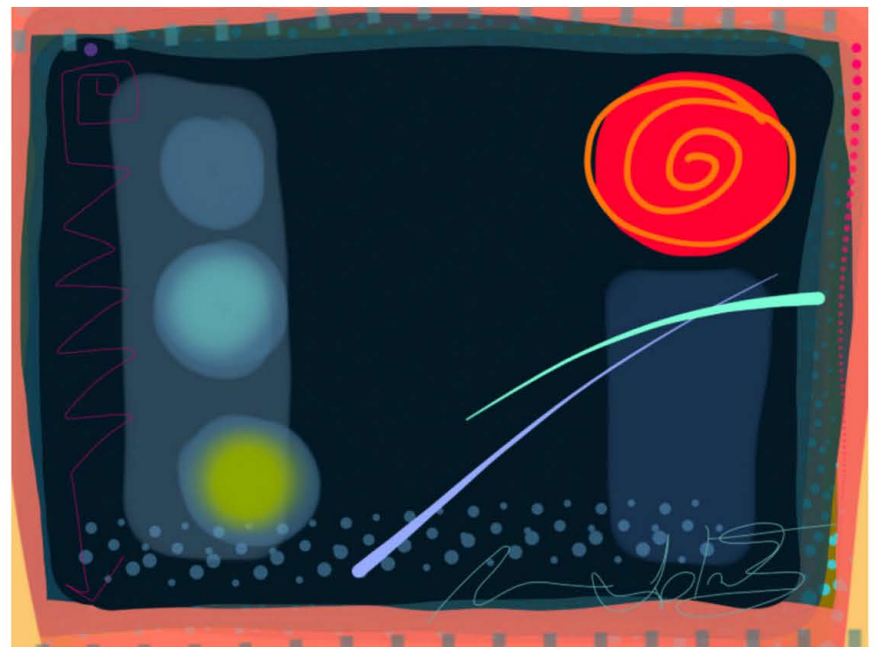

Sheffield — **Berkshire School's** Warren Family Gallery will host an opening reception for “The Apples of Our ‘i,’” a digital art exhibit by **John and Nina Lipkowitz**, on Tuesday, Jan. 10, from 6 to 7:30 p.m. The exhibit will be on display through Friday, March 10.

Intrigued by the creative possibilities of using Apple portable devices to make art, John and Nina Lipkowitz wanted to create a show combining Nina's mid-century, abstract iPad prints with John's iPhone photographs taken at **Hancock Shaker Village** and digitally processed with antiquing filters to mimic historical photographic processes and various aging effects.

Nina Lipkowitz was born and spent most of her adult life in New York City, where she received her degree in art history and later studied at the **Art Students League**. She has been a sculptor, a potter, a painter and a yoga teacher. Living in Great Barrington, she has found her voice painting watercolors and abstract iPad paintings printed as archival pigment prints.

For more than five decades photographer and former New York City attorney, John Lipkowitz has loved visiting living museums. During a visit to Hancock Shaker Village in 2014, after having read about and seen examples of the uses of iPhone photography, he traded his traditional camera for his iPhone and some of the antiquing filters then available.

For more information, call (413) 229-1265.
